

Can I go to school today?

Symptom checklist:

- Fever of 100.4°F or higher
- New persistent cough
- Shortness of breath
- Loss of taste or smell
- Fatigue, muscle aches
- Headache, congestion
- Sore throat, runny nose
- Nausea, vomiting, diarrhea

If your child has any of the above symptoms,

keep them home, inform the school,
& contact your healthcare provider

We will not take temperatures at school unless your child is feeling ill. Our thermometers don't work in the cold weather!

Please keep your kids home if they exhibit these symptoms! We appreciate your diligence! We are all in this together.
